HOW IT WORKS

LIVE CHAT

A welcome message to initiate the chat. It's Customizable.
- ✓ **Assistance Needed**
The visitor shares basic details of what type of assistance they require.
- ✓ **Name of Visitor**
Agent gets visitor's first and last name.
- ✓ **Location/Region**
The location is confirmed in order to determine if it falls within the actual service area.
- ✓ **Lead Information**
The visitor's contact details, a most vital piece of information, are promptly recorded.
- ✓ **Scheduling/Appointment Preference**
The agent confirms the best time slot for either a visit or a call from the office.
- ✓ **Attempt Live Call Connect**
A connecting call is placed with the office, there & then, to ensure the visitor's convenience.

What is the definition of a ‘Qualified Lead’?

A qualified lead is a visitor who is interested in your services, is not a past customer, and whose contact information (email and/or phone) has been captured by our agent.

Can I Reject a Lead if it’s Unqualified?

Yes! If we generate a lead for you that doesn’t match the qualification criteria, you can simply request an “unbill” for that lead.

What is the definition of a ‘Chat’?

A chat is a conversation between the visitor and our agents. Our system automatically recognizes when a chat is started, so that is considered a new chat for that specific visitor.
